

LET'S CREATE A NEW TOMORROW WHERE EVERYONE CAN THRIVE.

Physicians around the province have shown that together we can create change. Over the years, BC Family Doctors has led changes to family physician compensation and primary care reform. We are making sure family doctors' voices are heard and patients' needs are met.

We still have much work to do, but we are confident that together, we can transform primary care into an ecosystem where physicians and patients can truly thrive.

We are just getting started, but we can't do it without you.

WHAT WE DO

Motivated by a future where all family doctors thrive, we pledge to:

- Lead and support the expansion of the Longitudinal Family Physician Payment Model for those of you whose choose this payment method.
- Lead the work around Fee-for-Service modernization.
- Advocate for the needs of all family doctors, regardless of how you choose to be compensated.
- Raise awareness of the challenges you face so that the government and the public are aware of the sacrifices and costs you incur.
- Listen, network and advocate for a strong future for family medicine.
- Address systemic factors impacting physician workload and health.
- Increase family doctor engagement and representation.
- Build and increase our capacity to serve you.
